Weddings are a time for tradition and Cars for Stars firmly embraces the value of good old-fashioned service and courtesy. We want your day to be a special day and your wedding cars are an essential component of the day.

If you want something specific on your day and it is within our power to provide it, we will

## Attention to detail

Cars for Stars know how important your wedding day is! You can book with confidence, knowing that every detail relating to your wedding transportation will be attended to. Part of our detailed approach is to check the route where necessary to minimise the risk of a hold up on the day.

## Wedding Cars

Although we have other vehicles, we specialise in providing late model, stretched limousines.

Our latest investment is a new white American stretched limousine allowing the bride to arrive at the church in eye catching style. This investment is a testament to our commitment to detail.

## Other Cars

Our fleet includes a black stretched limousine, which is perfect for the groom and other guests, the latest model long wheel base Mercedes S500L and a black Range Rover.

## The Bridal Car

This normally includes:-

- Uniformed Chauffeur
- Time permitting, one or more journeys to transport bridesmaids or family
- Collection of the Bride and Escort
- Elegant rear window floral display
- White or coloured ribbons and bows
- Photographs of the Bridal Car

Where the church or venue is some distance from the pick up address, then it may be appropriate to hire a second vehicle. This will allow for the transportation of the Bridesmaids, Best Man and perhaps the parents of the Bride and Groom.

The above is a 'typical' arrangement. We also have special inclusive packages for weddings on a budget. However we would be delighted to provide a tailored plan for your specific wedding transportation needs.

## Our Commitment

We only use our wedding cars once on any single day, which allows for flexibility if you require the cars for a longer period of time for photographs or additional transport.

We have invested substantially in our vehicles as well as in our chauffeurs to ensure that your transportation needs are dealt with smoothly on the day.

We aim to deliver an efficient service, reliability and value. We do not however, commit to being the cheapest!
